

Rejestr pytań i odpowiedzi do postępowania nr ZC/30/EITE-DS/2020

Nr	Referencja do MN	Treść Pytania	Odpowiedź EITE
38		As we are approaching the tender deadline we would like ask for another extension of the submission deadline since the Polish documentation and translation of it to English poses a very time consuming issue for us.	We agree to extend the deadline for submitting offers to 10th of June
39		At the same time we would like to again point out that we wish to submit the bid and documentation in English. Our solution is internationally recognized and all our documentation is prepared in English. Of course we have some parts ready in Polish which can help understand the system and how it works but the main submission documentation shall be submitted in English. This is the best way we can provide our solution at the highest level	As we have stated before - according with the negotiating materials, the offer must be submitted in Polish.
