
11. Representation on the application of corporate governance

11.1. Identification of applicable rules

One of the priorities of the ENEA Group is shareholder value creation, also by ensuring transparency of the Company. With that in mind, the Management Board of ENEA S.A. represents that in 2022 the Company applied the corporate governance rules forming an Attachment to Resolution No. 13/1834/2021 of the Supervisory Board of the Warsaw Stock Exchange of 29 October 2021, titled "Best Practice for WSE Listed Companies 2021" (DPSN 2021), published on the WSE website at <https://www.gpw.pl/dobre-praktyki2021>.

Since the Prime Minister has not yet defined the best corporate governance practices referred to in Article 7(3) of the Act on the Rules for Managing State Property, in 2022 the Company did not apply any best practices other than those specified in the Best Practices for WSE Listed Companies.

In connection with the obligation of the Management Board under § 11(4)(2) of the Company's Statute to submit a report to the Supervisory Board on the application of best practices defined by the Prime Minister and given that ENEA S.A. observes the DPSN, in 2022 the Company did not apply best practices other than the "Best Practice for WSE Listed Companies 2021", which were in effect as of 1 July 2021.

11.2. Waived corporate governance rules and recommendations

It is the intention of the ENEA S.A. Management Board to apply all corporate governance rules. However, due to the fact that some rules may impose excessive burden on the Company that may be disproportionate to benefits resulting from the needs of the market, in accordance with the above explanations, the Company does not apply rules 1.4.2., 2.1., 2.2., 4.1., 4.3., 4.8., 4.9.1. of the Best Practice for GPW Listed Companies 2021.

Information policy and investor communication

1.4.2. To ensure adequate communication with stakeholders, as regards its adopted business strategy, the Company publishes on its website relevant information on the assumptions of the strategy in place, measurable goals, including, without limitation, long-term goals, planned actions and the current progress towards its objectives, as expressed in financial and non-financial metrics. Information on ESG strategy should, among other things:

- indicate the value of the Company's equal pay ratio for salaries paid to employees, calculated as a percentage difference between average monthly salary (including bonuses, awards and other extra allowances) of women and men for the last year, and indicate information on the measures taken to eliminate any inequalities in this respect, along with the identification of any related risks and the time frame over which equality is planned to be ensured.

Company's comment: It is the Company's intention is to strive for equal rights for its employees in every aspect of their employment, including equal pay for women and men. In addition to the data included in this report in the Non-Financial Statement, the Company does not currently present separately any additional information on the equality of pay between women and men. The employment structure in the member companies of the ENEA Group tends to show a significant over-representation of men over women, while information on employment and employee remuneration is presented in the Company's periodic reports, which are published in accordance with the generally applicable provisions of law. Additionally, such data, augmented by a breakdown of jobs by gender or age, are published in this report in the Non-Financial Statement, and supplementary data on the type of employment contract, departures from the company and new hires are published online every year in the ENEA Group's ESG Reports. At the same time, the Company will endeavour to provide additional data, where appropriate, in accordance with the guidelines set out in this rule..

Management Board and Supervisory Board

2.1. The Company should have a diversity policy in place for its Management Board and Supervisory Board, adopted by the Supervisory Board or General Meeting, respectively. A diversity policy sets out diversity goals and criteria in areas including gender, field of education, expertise, age and professional experience as well as indicates the time frame and method for monitoring the achievement of those goals. As regards gender diversity, the condition for ensuring diversity in the Company's corporate bodies is for a minority to have a no less than 30% representation in a given corporate body.

Company's comment: The Company does not currently have in place a Diversity Policy adopted by the Supervisory Board or the General Meeting. However, diversity principles are applied within the Company. Currently, there are no women in the Company's Management Board. However, the Supervisory Board is composed of both women and men. The current gender mix in the Company's corporate bodies does not ensure differentiation at a level of at least 30%. However, it should be emphasized that the election of members for the Company's corporate bodies is based on the generally applicable provisions of law and the Company's Statute, in consideration of pertinent recruitment documents. Members of the Company's Management Board and Supervisory Board are selected based on a variety of criteria, including gender, education, age and professional experience. Recruitment activities are carried out by the Company's bodies authorized to appoint such individuals.

2.2. The individuals who make decisions on the selection of the Company's Management Board or Supervisory Board members should ensure these bodies are comprehensive by electing individuals that guarantee diversity, for example by making it possible to reach a target minimum minority representation of no less than 30%, in accordance with the goals set out in the diversity policy in place referred to in rule 2.1.

Company's comment: The Company applies the principles of diversity. However, it must be emphasized that members for the Company's corporate bodies are selected based on the generally applicable provisions of law and the Company's Statute, on the basis of recruitment documents received. Members of the Company's Management Board and Supervisory Board are selected

based on a variety of criteria, including gender, education, age and professional experience. Recruitment activities are carried out by the Company's bodies authorized to appoint such individuals.

General Meeting and shareholder relations

4.1. The Company should make it possible for shareholders to participate in the general meeting using electronic means of communication (e-general meeting), if the same is justified by shareholders' expectations communicated to the Company, as long as the technical infrastructure necessary to hold such a general meeting can be provided.

Company's comment: The Company does not conduct its General Meetings using electronic means of communication (e-general meeting). The Company has not received any relevant expectations in this respect from its shareholders. In the Company's opinion, certain risks of a technological and legal nature exist in the context of the conduct of General Meetings using electronic means of communication.

4.3. The Company provides generally available broadcast of the general meeting in real time.

Company's comment: Please be advised that the Company does not provide publicly available real-time broadcasts of its General Meetings. However, video and sound are recorded during the Company's General Meetings, and are subsequently uploaded to the Company's corporate website and made available for playback.

4.8. Draft resolutions of the general meeting on matters included in the general meeting agenda should be notified by shareholders no later than 3 days before the general meeting.

Company's comment: As regards the exercise of corporate rights by shareholders, the Company observes predominantly the principles arising from the generally applicable provisions of law, according to which a shareholder or shareholders representing at least one-twentieth of the share capital may submit to the Company, prior to the date of the General Meeting, draft resolutions on matters included in the agenda of the General Meeting or matters requested to be put on the agenda. Moreover, during the General Meeting, each shareholder may submit draft resolutions on matters included in the agenda. The Company may not influence any actions in this respect by its shareholders, yet it encourages shareholders to submit their draft resolutions well in advance, in compliance with this principle.

4.9.1. Candidates for the Supervisory Board members should be nominated within a time frame that makes it possible for shareholders present at the general meeting to make an informed decision, but no later than 3 days before the general meeting; candidates, along with the complete set of relevant materials, should be immediately published on the Company's website;

Company's comment: As regards the exercise of corporate rights by shareholders, the Company observes predominantly the principles arising from the generally applicable provisions of law, according to which a shareholder or shareholders representing at least one-twentieth of the share capital may submit to the Company, prior to the date of the General Meeting, draft resolutions on matters included in the agenda of the General Meeting or matters requested to be put on the agenda. Moreover, during the General Meeting, each shareholder may submit draft resolutions on matters included in the agenda. The Company may not influence any actions in this respect by its shareholders, yet it encourages shareholders to propose their candidates well in advance, in compliance with this principle.

11.3. A description of the main features of the issuer's internal control and risk management systems in relation to the consolidated financial reporting process

The rules and procedures for preparing financial statements are regulated, in particular, by the International Financial Reporting Standards, the Accounting Act and internal procedures in place at ENEA S.A.

The establishment of systems of internal control and risk management as regards the process of preparation of consolidated financial statements aims particularly at guaranteeing the completeness and correctness of financial information included in financial statements and periodic reports.

The ENEA S.A. Management Board is responsible for the ENEA Group's internal control system and its effectiveness in the process of preparing the financial statements and periodic reports. The purpose of an effective internal control system in the financial reporting process is to ensure completeness and correctness of financial information contained in financial statements and interim reports.

Financial statements and periodic reports as well as monthly management and operating reporting applied by Enea S.A. ("Company") are based on data derived from the Company's financial and bookkeeping system. After the performance of all the pre-determined ledger closing processes at the end of each month, detailed financial and operational managerial reports are prepared. These reports are drafted by the Group's Controlling Department with co-participation of middle and senior management of the individual organizational cells. With respect to closed reporting periods, not only the Company's financial results but also respective business areas are subject to detailed analysis. Annual reviews of strategies and economic and financial plans are carried out in the Company. Middle and senior management are particularly involved in the process of detailed planning and budgeting, which covers all areas of the ENEA Group's operations. The Company's Management Board adopts the material and financial plan prepared by the Group's Controlling Department, and the Supervisory Board approves the plan. During the year, the Company's Management Board oversees the pursuit of the objectives laid down in the adopted material and financial plan. The management cockpit developed by the Group's Controlling Department in cooperation with other Departments constitutes a valuable source of information for the Supervisory Board on the current financial situation, environment and the level of attainment of objectives in critical areas.

The Company continuously employs cohesive accounting rules to present financial data in the financial statements, periodic reports and other reports conveyed to shareholders.

The ENEA Group regularly assesses the quality of its internal control and risk management systems with regard to the process of drawing up financial statements. Based on the assessment conducted, the Management Board of ENEA S.A. concludes that as at

31 December 2022 there were no irregularities which could have significantly affected the effectiveness of internal control as regards financial reporting.

As part of risk management with respect to the financial statement preparation process, an independent statutory auditor's review of the financial statements is one of the key elements of external control. Auditor's tasks include, without limitation: reviewing semi-annual financial statements and auditing the annual standalone and consolidated financial statements. The independent auditor is selected by the Supervisory Board. After the auditor completes the audit of financial statements, they are sent to Supervisory Board members and the Supervisory Board assesses the compliance of the standalone and consolidated financial statements with the ledgers and documents and with the factual status. Pursuant to the Accounting Act, the Management Board and the Supervisory Board members are required to ensure that the financial statements satisfy the requirements provided for in the Accounting Act.

Another important element of the internal control system is the internal audit function performed by the Audit Management Division. Internal Audit at ENEA Group is independent and reports to the Audit Committee operating within the Supervisory Board. The main tasks of internal audit are, without limitation, to support the effectiveness of the internal control, risk management and compliance systems by: providing an independent assessment of the above-mentioned systems, auditing and evaluating relevant controls in processes performed by ENEA Group companies, recommending improvements, for example as regards corporate governance, and monitoring the efficient implementation of the recommendations issued. The inspection activities and process monitoring undertaken by the Company result in a low likelihood of the risk of an untimely or incorrect preparation of information on the Company's financial performance.

As at the date of these financial statements, there are no restrictions at the Company regarding the exercise of voting rights, except for those arising from generally applicable laws.

11.7. Restrictions on free transferability of securities

11.10.4.1.2. Cooperation with an audit company

Main assumptions of the prepared policy for the selection of an audit firm to conduct an audit in ENEA S.A.

The policy for the selection of an audit firm in place at ENEA S.A. provides, above all, for avoiding conflicts of interest by obtaining a declaration of the audit firm, before it accepts or continues the audit contract, that requirements regarding independence (both with reference to the audit firm and the certified auditor) are met, and in particular that there are no risks to independence towards ENEA S.A. Each year, the audit firm confirms its independence to the Audit Committee and presents the risks to its independence as well as the safeguards applied to mitigate said risks. Furthermore, the selection of an audit firm takes into account above all the audit team's experience in the field of audit, its expertise, the financial criterion and the human resources. An audit firm is selected in compliance with the principle of impartiality and independence of audit firms, in accordance with the laws related to the mandatory regular replacement of audit firms and key certified auditors, mandatory grace periods and results of audit firm controls presented in the annual report published by the Polish Audit Oversight Committee.

The policy for the selection of an audit firm provides also for the principles of regular replacement of audit firms and certified auditors in accordance with the provisions of the Act of 11 May 2017 on Certified Auditors, Audit Firms and Public Oversight. (Journal of Laws of 2017, item 1089, as amended; hereinafter referred to as the Act on Auditors).

Main assumptions of the Policy on the provision of acceptable services other than audit by an audit firm

ENEA S.A. and its subsidiaries are allowed to use acceptable services (defined pursuant to Article 136 of the Act on Auditors), which are provided by an audit firm that conducts the audit of ENEA S.A.

The policy for the provision of acceptable services other than audit by an audit firm contains a closed catalog of acceptable services, the provision of which is allowed only to the extent that is unrelated to the tax policy of the ENEA Group companies. An acceptable service other than audit may be provided by an audit firm that conducts the audit of ENEA S.A. provided that the firm was approved by the Audit Committee beforehand, upon an assessment of risks and safeguards of independence of the audit firm, the key certified auditor and other audit team members. In addition, where the audit firm that conducts an audit of ENEA S.A. provides acceptable services other than audit for the period of at least three consecutive financial years, the remuneration for the provision of said services is limited to 70% of the average remuneration of the three past consecutive financial years paid in respect of the statutory audit of ENEA S.A. and, as applicable, its subsidiaries and consolidated financial statements of this Group. In the case of prohibited services, i.e. services other than acceptable services, their direct and indirect provision at ENEA S.A. and its subsidiaries by the audit firm that conducts an audit of ENEA S.A. is prohibited in the period from commencement of the audited period to the issue of an audit report.

In 2022, acceptable services other than audit were provided to the ENEA Group by an audit firm auditing the financial statements, and the ENEA S.A. Supervisory Board Audit Committee approved the acceptable services other than audit upon an assessment of risks and safeguards of independence.

In December 2022, ENEA S.A. amended the document “Policy for the selection of an audit firm to conduct an audit in ENEA S.A., Policy for the provision of acceptable services other than audit by an audit firm and Procedure for the selection of an audit firm.” The amendments introduced to the aforementioned regulation concerned in particular:

1. the possibility to continue cooperation with a given audit firm by way of concluding an annex to the agreement,
2. the necessity to allow for the guidelines/recommendations of the Office of the Polish Financial Supervision Authority as regards development of effective and efficient solutions in case the audit firm forfeits its license or other circumstances preventing it from carrying out an audit arise,
3. the update of the provisions under the amendment to the Act on Certified Auditors, Audit Firms and Public Oversight, which has been applicable since 1 January 2022.
